February 11, 2022

Dear Friend,

I am writing to you to ask if you would consider donating to help sponsor a child through our 2022 Campership Campaign. Our campaign ends March 17th.

These last twenty-four months have been very hard for everyone. Stress and anxiety have been a daily staple as our country fights this pandemic. Our children have faced family losses and disruptions and have been asked to adapt to ever-changing school schedules.

We were able to open camp these last two summers to increasing numbers because of our commitment to COVID safety protocols. We know that Summer Camp (overnight) and Day Camp will be more important than ever this summer. We want to help our children get life back to the “security of normal.” We know how important being outdoors can be to mental health and feeling “hope.”

The Campership Program serves our low-income and “at-risk” children, especially from underserved populations. Our kids are Black, White, Native American, Hispanic, Pacific Islander, Asian, and Middle Eastern. Parents and former campers tell us how life-changing a camp experience has been. The children tell us of gaining confidence, learning new skills, increased self-awareness, making friends, feeling accepted, and coming out of their shells.

Your donation towards this year’s campership program will truly make the difference. Please help us as we try to make a positive impact one child at a time.

Jeanne Lilienthal
Campership Coordinator

Camp Cavell is a 501(c)3 organization.
